2002-2003 Staff Clinical Psychologist, Samaritan Center, Austin, TX
2004-2007 Private Practice in Clinical and Neuropsychology, Austin, TX
2007-Present Owner and Senior Psychologist, ADD Austin, Austin, TX

Clinical Specialization:

Background in neuropsychology, clinical psychology, counseling psychology, and marriage and family therapy provides a strong breadth and depth of clinical skills that undergird a full range of psychological services to patients and their families. Several years in a tertiary, interdisciplinary

behavioral neurology clinic at a Harvard Medical affiliated hospital led to strong diagnostic skills in patients with very complex presentations. A long-standing interest in and experience with college-aged patients with AD/HD and related challenges. A strong commitment to the use of evidence-based assessment tools and interventions.

Teaching and Mentoring Experience:

1996-1999	Instructor in Counseling Psychology, Northeastern University
1996-2000	Supervision of doctoral-level psychology interns and practica students, psychiatry residents, Harvard Medical School
2004-2007	Supervision of masters-level counseling practica students, Seminary of the Southwest, Austin, TX
2006-	Visiting Lecturer, University of Texas at Austin, Department of Clinical Psychology
Ongoing	Training and supervision of master's, pre- and post-doctoral students and interns

Selected Lecture Topics:

All facets of Attention Deficit Hyperactivity Disorder and related disorders of executive functioning and working memory. A few examples:

- Assessment/Diagnosis of AD/HD
- Neuropsychology and AD/HD
- Parenting Children with AD/HD
- Psychological Treatment of AD/HD
- Marriage and Family Complications in AD/HD
- Computer-based Interventions in AD/HD: What Really Works?
- Working Memory in AD/HD and related disorders

Community and Professional Service:

- CHADD (Children and Adults with ADD) – Frequent speaker and facilitator at the local CHADD meetings since 2001. Currently leading the Adults with ADD Support Group on a volunteer basis at monthly CHADD meetings.
- Invited speaker to parents and master's level counselors on a variety of issues related to AD/HD.
- Maintain a website dedicated to providing information on AD/HD to the Austin community.
- Occasionally lecture at Austin Neuropsychological Society (invited and volunteer).
- Panel discussant (e.g., University of Texas at Austin forum on “study drugs”).
- Consultant to psychiatrists, psychologists, and master's level clinicians on diagnosis and treatment of AD/HD on a volunteer basis.
- Regularly available to meet with students in the mental health professions
- Consult with media on mood disorders and AD/HD

Professional Organizations:

American Psychological Association
Texas Psychological Association
Austin Neuropsychological Society

Publications:

No professional publications. I made a deliberate choice to focus on the development of clinical skills and the supervision of young professionals. I am a voracious consumer of research, but my creative energies have been reserved for my clinical work.
